Survivor Justice *Action* Endorses Kamala Harris for President

October 31, 2024 – Today, [Survivor Justice Action](#) (SJA) is proud to officially join survivors of domestic violence and allies across the country in endorsing Kamala Harris to be the next President of the United States. SJA is a non-partisan organization, we work with champions for survivors, those who further the safety, protections and services for victims and survivors, whether they be Republican, Democrat or Independent. This endorsement is not about party politics— it is literally about the lives of survivors and their families. Ruth M. Glenn, president of SJA released the following statement:

“Vice President Kamala Harris is the only candidate who has demonstrated care and support for survivors of domestic violence. She has held abusers accountable as opposed to her opponent who has directly harmed women.”

“This election will have an enormous impact on victims and survivors of domestic violence — from access to reproductive healthcare and gun violence prevention to affordable housing and increased funding for life-saving services that need to be scaled up to meet unprecedented demand. As a U.S. Senator, she supported efforts to close the boyfriend loophole to prohibit stalkers from purchasing or possessing firearms. She also called on Congress to reauthorize the Violence Against Women Act, which provides critical funding for survivor resources and programs.”

“The survivor voting bloc is larger than most know, and it is a smart and resilient one. We are supporting them in their right to vote. SJA is proud to endorse Vice President Kamala Harris for President. We wholeheartedly believe that she is the only candidate we can trust to advance the safety and wellbeing of victims and survivors.”
